

TALOFA KATOA FROM TUVALU

1. Tuvalu's Vision & Goal
2. Government Desire
3. Challenge of Renewable in the Tourism Industry.
4. Way forward

VISION

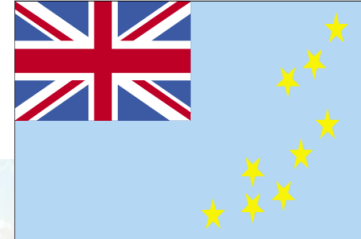

TO BECOME 100% RENEWABLE ENERGY IN TERMS OF ELECTRICITY BY THE YEAR 2020.....

To improve the well being of the Tuvalu people by promoting the use of its renewable energy resources and implementing cost effective, equitable, reliable, accessible, affordable, secure and environmentally sustainable energy systems

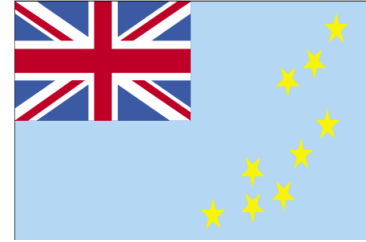

Government DESIRE

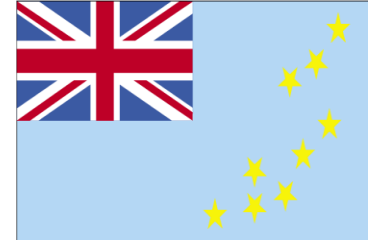

- ❖ Tourism Support by Government (National Strategy Development Plan)
- ❖ Private Sector Driven
- ❖ Increase the number of tourists arrivals.
- ❖ Support and develop new private sector

CHALLENGES OF RENEWABLE IN THE TOURISM INDUSTRY

- **Challenge of Isolation**
- **High fare of Airline services**
- **Undermanned & Inadequate capacity in the tourism sector**
- **Small Market**

**No Renewable Energy Development Plan in the
Tourism Sector**

Way Forward

- **Open Window for Tuvalu to the outer World**
- **Capacity building in the Tourism Sector**
- **Support the development of an eco-tourism industry**
- **Support Private Sector in developing RE technologies**
- **Demand Side Management (Energy Efficiency)**

IRENA Please to assist feasibility Study in the use of Net-metering & Feed in Tariff.
